

Cellamix™ 55

Minor code (Aus)	SG098
Gas composition	55% Carbon Dioxide, balance is Nitrogen
Cylinder identification	Green grey shoulder with a pewter body

Description

- ▶ Non-flammable, non-toxic, inert, colourless and odourless gas

Used for

- ▶ Cellamix™ 55 is used to dispense all beer types, even some stout beers. It is specifically designed to eliminate wastage problem associated with slow moving bulk beer
- ▶ Most commonly used mixture

Usage Guide

- ▶ One F size cylinder – 20 x 50 litre kegs (contains 6m³)

Advantages

- ▶ It has been specifically designed to reduce wastage through over carbonation while maintaining the beer's lively presentation. Cellamix™ 55 has been trialled with breweries Australia wide, its development was overseen by Beer makers

Degas

- ▶ There is no need to degas kegs when not in use as it will retain the correct level of carbonation in the beer

Precautions

- ▶ Gas needs to be turned off when not in use
- ▶ Cellamix™ 55 is not suitable for:
 - ▷ Beer dispensing using a warm keg (not cool room situation)
 - ▷ Post mix systems
 - ▷ Wine and soft drinks
 - ▷ Draught Guinness stout
